Come è stato progettato. The way we designed it.

Robustezza Strength

Servizio clienti e zona cassa sono le aree più vissute in un punto vendita. Il banco B05 si distingue dagli standard di settore per le sue doti tecniche e l'elevata resistenza, rivoluzionando quindi il concetto di usura.

Inside a point of sale the most stressed area is that dedicated to customer service and cashier. The use of materials characterised by long durability puts B05 above the common standards, and makes a statement about the resistance to wear.

Funzionalità Functionality

B05 è stato studiato non solo come punto di appoggio o esposizione prodotti, ma come vero e proprio "centro nevralgico" all'interno del punto vendita. L'ampia gamma di accessori dedicata permette di configurare la zona retro banco secondo specifiche esigenze.

B05 has been devised not only as a place to put things down or as a showcase, but as a real center of relationship with the client. The product is furtherly completed by a large range of accessories and by the possibility to configure its back side in accordance to need.

Estetica Aesthetics

Il bello è funzionale. L'estetica minimale che caratterizza B05 si traduce in soluzioni semplici ed efficaci. L'estrema cura nella scelta dei materiali e delle superfici si traduce in un'esperienza piacevole alla vista e al tatto.

Beautiful and functional. The minimalistic aesthetics of B05 becomes simple and down-to-point solutions. Materials and surfaces chosen with great care create a pleasant visual and sensorial experience.

Convenienza Convenience

Tante idee per personalizzare B05. Una filosofia che permette di ottimizzare le risorse del retailer lasciando spazio solo a ciò che ritiene necessario. A questo si aggiunge la tecnologia LED che annulla quasi totalmente il concetto di "manutenzione" nel tempo e assicura un notevole risparmio dei consumi.

Many solutions from which to choose for the customization of B05. A philosophy that allows to optimize the resources of the retailer only taking what is necessary. To this we add the use of LED technology, that reduces to almost zero the need for maintenance over time, and becomes a money saver.

How to compose B05: the structure.

Tutto quello che vuoi con la massima semplicità. Abbiamo disegnato un sistema semplice e veloce da progettare, per permettervi di gestire anche le soluzioni più complesse in termini di gestione dello spazio. Un unico modulo in due altezze combinabili tra loro permettono di moltiplicare le soluzioni funzionali a disposizione del progettista. I rivestimenti, in vetro, legno e materiali compositi possono essere applicati a qualsiasi soluzione di layout.

Possibili combinazioni:

Possible combinations:

Everything you may want with the greatest simplicity. We have designed a system that is simple yet quick to be used, suitable to be applied to the most complex situations of space management. One module presented with two combinable heights that allow to create multiple functional solutions. The various surface finishing materials, as glass, wood and composites can be used in every layout solution.

Esposizione

Vetrine, gradinali al "tocco", ripiani, ecc. presentano il prodotto al meglio, trasformando il banco in un valido sistema espositivo.
